

Sprint 2 - Report

Product Name: RouTeam

Team Name: Habit Tracker with Friends

Date: 11/3/2021

Actions to stop doing:

- Being late to meetings

Actions to start doing:

- Start early, tell your difficulties earlier
- Citing sources
- Clean up code and make it easier to read, more documentation
- Implementing tests
 - Bug fest
 - make sure code runs on iOS

Actions to keep doing:

- Sending resources about the code we write
- Being available to help on same day
- Self learning (reading examples online, take and make your own)

Work completed:

Story 1:

- Task 1: Setting up a database with Firebase. - 3 hrs
- Task 2: Handle new user registration, deal with input values (minimum length password) - 3 hrs
- Task 3: Store user's account information in the database (users accounts should be unique) - 2 hrs
- Task 4: Allow login for certain cases only (ie. when login button pressed, input fields must not be empty and must contain correct information, types of strings that are accepted). Display correct error message to user when password is incorrect - 5 hrs

Story 2:

- Task 1: Design the UI for the profile page - 1 hr

Story 3:

- Task 1: Design UI where user can view habit details. - 1hr
- Task 2: Implement a page where user can view habit details (includes getting information from database). - 4 hrs
- Task 3: Create button and allow user to take picture - 4 hrs

Work not completed:

Story 2:

- Task 2: Implement and refine the UI for the profile page (profile minimum should include name, photo, what habits the user is working towards) 3 hrs

Story 3:

- Task 4: Store picture in database - 3 hrs

Work completion rate: 71%

Sprint 1: Stories completed : 2. Work hours: 14. 14 days.

Sprint 2: Stories completed : 1. Work hours: 22. 14 days.
